C O N T E N T S

Volume 8

Number 1, July 1977

Notices 1

Passage of certain penicillins into the uterine tubal fluid of estrous and pregnant rabbits

P.D. Sander, C.W. Foley and D.D. Goetsch 3

Effect of nutritionally induced liveweight differences on ovulation rates and the population of ovarian follicles in ewes

A.J. Allison 19

Synchronized breeding in cattle using $PGF_{2\alpha}$ and LHRH/FSHRH stimulatory analogs

J.A.S. Chipepa, J.E. Kinder and J.J. Reeves 25

Concentration of prostaglandins E and F, fructose and glycerylphosphorylcholine in ram semen obtained by electro-ejaculation or artificial vagina and in vesicular fluid

P.B. Marley, Suzanne R. Morris and I.G. White 33

Dexamethasone and estradiol benzoate induced parturition in dairy cattle

K.A. Bolte, H.A. Garverick, D.J. Kesler, B.N. Day and E.C. Mather 45

The effect of neonatal estrogen treatment on plasma hormone levels and behaviour in pre- and post-pubertal bulls

J.J. Bass, A.J. Peterson, E. Payne and M.P. Jarnet 59

Erratum 73

Numbers 2-3, August-September 1977

Notices 75

Repeatability of non-surgical intrauterine technique for artificial insemination in the ewe

Y. Fukui and E.M. Roberts 77

THERIOGENOLOGY

Plasma estradiol-17β concentration in ewes and cows after estradiol-17β administration

Caird E. Rexroad, Jr. 83

Fertility in Santa Gertrudis heifers

L.D. Shipp, J.N. Wiltbank and N. Parish 93

Synchronization of estrus and ovulation in gilts with estradiol and prostaglandin $F_{2\alpha}$

Robert R. Kraeling and George B. Rampacek 103

Synchronization of estrus in cattle for embryo transfer

P.T. Cupps, G.B. Anderson, M. Drost, B. Darien and M.B. Horton 111

Granulosa cell tumor in a cow: Clinical, hormonal, and histopathological observations

W.T.K. Bosu 119

Number 4, October 1977

Two pools of pituitary LH. An hypothesis explaining the control of the preovulatory surge of LH in the ewe

T. Stelmasiak and I.A. Cumming 131

The importance of plasma prolactin levels during the artificial induction of lactation in cows

C.J. Peel, R.D. Hooley and J.K. Findlay 132

Artificial induction of lactation with prostaglandin $F_{2\alpha}$

D.E. Field, D.B. Gow, G.H. McDowell and J.M. Gooden 133

Lactogenesis and control of prolactin in cows

R.A.S. Welch, E. Payne and Anne D. Hall 134

Oestrogen, Progesterone and Reserpine administration for the artificial induction of lactation in cows

J.W. Taylor, C.J. Peel, I.B. Robinson and A.A. McGowan 135

Artificial induction of lactation in maiden heifers

W.J. Fulkerson 136

The effect of heat stress on prolactin and LH secretion in the ewe

R.D. Hooley, R.G.A. Stephenson and J.K. Findlay 137

Pre-mating plasma corticoid levels and calving percentage of different breeds of crossbred heifers

J.M. Obst and M.P. Deland 138

Ultrastructure of cells in the surface epithelium of the rat uterus during early pregnancy, and the effect of an intrauterine device

P.V. Peplow 139

β-Glucuronidase in the reproductive tract of the ewe during early pregnancy

B.E. Murdoch and T. O'Shea 140

Growth of the corpora lutea of pregnancy in normal and unilaterally ovariectomized rats

G.T. Meyer and N.W. Bruce 141

Luteal regression in the guinea pig

M.I. Hossain and O'Shea.....142

The structure and function of the corpus luteum of lactation of the Bandicoot, *Isoodon Macrourus*

R.T. Gemmell 143

Stromal cell interactions in the rat uterus as influences by oestrogen and an intrauterine device

C.M. Wischik and A.W. Rogers 144

Histochemical and stereological studies on the sheep uterus during the oestrous cycle

M.J. Zamiri and A.W. Blackshaw 145

Comparison of microsphere and krypton washout techniques for measuring uterine blood flow in sheep

B.W. Brown, I.S. Fraser and P.E. Mattner 146

THERIOGENOLOGY

Effects of specs or polypeepers on reproductive efficiency and behaviour of layer hens in cages and floor pens

A. Arbi, Manika Wodzicka-Tomaszewska and R.B. Cumming 147

Behaviour patterns of young rams from flocks selected for differences in reproductive performance

D.G. Fowler 148

Seasonal variation in libido of intact Merino rams and of testosterone-treated castrates

P.E. Mattner 149

The comparison of expression of libido by rams in small pens when allowed to mate with either ovariectomised oestrous ewes or entire oestrous ewes

R.J. Kilgour and J.W. Herdegen 150

The importance of physical contact with other pigs during rearing on the sexual behaviour of the adult boar

P.H. Hemsworth, R.G. Beilharz and J.K. Findlay 151

The sexual and aggressive behaviour of normal and masculinized ewes chronically treated with Oestradiol-17β (E_2) or testosterone (T)

I.J. Clarke 152

The repeatability of ram mating performance in pens in consecutive years

J.F. Wilkins and R.J. Kilgour 153

An application of priming effect index (PEI) to the evaluation of serving capacity in rams

T. Stelmasiak, D.B. Galloway and C. Winfield 154

In Vitro fertilization and embryo transfer in infertile patients treated with clomiphene and gonadotrophins

A. Lopata, J.B. Brown, I.W. Johnston, J. Leeton, J. McTalbot and C. Wood 155

FSH and the inhibition of implantation in suckling mice

A.A. Gidley-Baird and C.W. Emmens 156

Detection of early pregnancy and embryo mortality in sheep by the Rosette inhibition test

B. Evison, C. Nancarrow, H. Morton, R. Scaramuzzi and J.A. Clunie 157

The transfer of amino acids across the placenta of a viviparous lizard, *Sphenomorphus Quoyi*

Jane Thompson 158

Steroid hormone metabolism in the fetal sheep kidney

M. Dolling and R.F. Seamark 159

The role of deglutition in the production of hydramnios

E.M. Wintour, A. Barnes, E.J. Brown, K.J. Hardy, I. Horacek, J.M. McDougall and B.A. Scoggins 160

The development of preimplantation mouse embryos under different oxygen tensions *in vitro*

P. Quinn and Gaye M. Harlow 161

Plasma progesterone in artificially maintained pregnancy in the ovariectomised rabbit

P. Merkelbach and C.W. Emmens 162

The occurrence of pregnancy associated antigen activity in uteri of pregnant and non-pregnant ewes

L.D. Staples and Mildred E. Cerini 163

Steroid metabolism by the placenta, corpus luteum and endometrium during pregnancy in the marsupial *Macropus Eugenii*

Marilyn B. Renfree and R.B. Heap.....164

Fertilization between sheep and goats and survival of hybrid embryos

J. Eppleston and N.W. Moore 165

Cell-mediated immunity to spermatozoa following vasectomy

A.G. Tumboh-Oeri and T.K. Roberts 166

The effect of testosterone on LH and testosterone responses to GnRH in bulls

T.B. Post and B.M. Bindon 167

THERIOGENOLOGY

Levels of LH, FSH and T in rams in response to two small doses of LH-RH

T. Stelmasiak, D.B. Galloway and W.J. Bremner 168

Gonadotrophin releasing hormone activity of the sheep pineal gland

P. Kotaras, J.E.A. McIntosh and R.F. Seamark 169

Increasing ovulation rate (OR) in the ewe by changing photoperiod

E.A. Dunstan, I.A. Cumming and J.K. Findlay 170

Induction of ovulation in sheep and cattle by injections of PMSG and ovine anti-PMSG immune serum

B.M. Bindon and L.R. Piper 171

Patterns of growth of Graafian follicles in sheep and their relationship to ovulation rate

K.E. Turnbull, R.B. Land and R.J. Scaramuzzi 172

Adenylate Cyclase activity in sheep ovarian follicular tissue: Developmental changes in hormone response

T.J. Weiss and D.T. Armstrong 173

Steroid production by isolated human theca and granulosa *in vitro*

J.F.P. Kerin and R.F. Seamark 174

A heterologous radioimmunoassay for Tammar Wallaby luteinizing hormone

Susan M. Evans and R.L. Sutherland 175

Radioimmunoassay and radioreceptor assay for Wallaby follicle stimulating hormone

Francesca Stewart, Susan M. Evans and R.L. Sutherland 176

The influence of photoperiod on embryonic diapause in the Tammar Wallaby, *Macropus Eugenii*

R.M.F.S. Sadleir and C.H. Tyndale-Biscoe 177

On the isolated perfused ovary as a model for the study of ovarian function in sheep and man

R.F. Seamark, P.O. Janson, F. Amato, M. Kaethner and L. Mak 178

LH and ovulation during pregnancy and pseudopregnancy in the mouse

B.M. White and A.A. Gidley-Baird 179

Gonadotrophin-induced inhibition of cholesterol biosynthesis in the ovine ovarian follicles *in vitro*

T.J. Douglas, R.P. Hamilton and R.F. Seamark 180

Effects on the ovulation and pregnancy rate of Merino ewes supplemented with lupin and oaten grain

G.D. Denney, P.A. McInnes and P.J. Holst 181

Early detection of ovulatory LH in women: Increased efficiency in artificial insemination

J.E.A. McIntosh and R.F. Seamark 182

Time of ovulation, fertilisation rate, and blastocyst formation in ewes following treatment with a prostaglandin analogue (ICI 80996)

I.J. Fairnie, R.G. Wales, and P.B. Gherardi 183

Time of ovulation in cattle following treatment with a prostaglandin analogue (PG), PG with LH-RH, or intravaginal silastic coils impregnated with progesterone PRID)

I.A. Cumming, R.W. Baxter, M.B. White, S.R. McPhee and A.P. Sullivan 184

Attempts to simplify the Spinnbarkeit test for clover disease in ewes

R.J. Rodgers, Ainslie Brown, J.K. Findlay, I.A. Cumming and S. Walker 185

Observations on oestrus without ovulation in sheep

J.H. Firth, S. Salamon and W.M.C. Maxwell 186

Cervical mucus characteristics of clover-affected ewes after ovariectomy

N.R. Adams 187

Performance of 4 breed types of sheep on a six-monthly breeding cycle

G. Evans and T.J. Robinson 188

THERIOGENOLOGY

The effect of partial weaning on the rebreeding performance of primiparous Hereford heifers

S.R. Baud and L.J. Cummins 189

Effect of plane of nutrition on luteinizing hormone (LH) response to luteinizing hormone releasing hormone (LH-RH) in anoestrus post partum beef cows

K.W. Entwistle and L.A. Oga 190

LH release due to LH-RH or oestradiol-17β (E_2) in post partum ewes

P.J. Wright and J.K. Findlay 191

Responses to injected oestrogen in suckled cows

C.D. Nancarrow, H.M. Radford, R.J. Scaramuzzi and T.B. Post 192

An attempt at the use of CB-154 (Ergocryptine) to reduce post-partum anoestrus in Hereford heifers

L.J. Cummins, J.K. Findlay and R.A.S. Lawson 193

The effect of chronic steroid treatment of ovariectomized ewes on LH-RH priming effect, exogenous LH-RH induced LH output and pituitary LH content

P.J. Wright T. Stelmasiak and J.K. Findlay 194

Plasma testosterone levels and ultrastructural studies on the prostate gland following castration in the marsupial *Isoodon macrourus*

B.W. Macdonald and R.L. Hughes 195

Testicular atrophy following rete testis cannulation in rams

H.W.G. Baker, D.M. deKretser, L.W. Eddie, R.E. Higginson, B. Hudson and E.J. Keogh 196

Differential distribution of spermatozoa to the two uteri of the Tammar Wallaby

C.H. Tyndale-Biscoe and J.C. Rodger 197

The metabolism and motility of human spermatozoa in the presence of steroid hormones and synthetic progestagens

R.V. Hyne, R.N. Murdoch and B. Boettcher 198

THERIOGENOLOGY

Investigation of the spermicidal action of quinine and Emetine

P.D. Brown-Woodman and I.G. White 199

Fertilizing capacity of ram spermatozoa stored at 5°C

S. Salamon, W.M.C. Maxwell and J.H. Firth 200

Anatomy & biochemistry of the male reproductive tract of the hairy-nosed Wombat (*Lasiophinus latifrons*)

D.E. Brooks, M. Gaughwin and T. Mann 201

Plasma androgens in the bull and ram

M.S.F. Wong, T.B. Post, P.E. Mattner and R.I. Cox 202

The influence of androgen status on metabolic activity in the rat epididymis

D.E. Brooks 203

Penetration of human oocytes by human spermatozoa *in vitro*

R. McMaster, R. Yanagimachi and A. Lopata 204

Binding of lactate dehydrogenase isozyme X (LDH-X) by sperm antibodies of infertile humans

M. Coughlan, B. Boettcher and T. Roberts 205

Fertility of boar semen after long-term frozen storage

W.M.C. Maxwell and S. Salamon 206

19-OH-Prostaglandin F in the semen and prostate gland of marsupials

P.B. Marley, M.L. Selley, A.M. Duffield, J.C. Rodger and I.G. White 207

Re-examination of the effects of castration on sperm numbers in the ligated cauda epididymis of the hamster

P.D. Temple-Smith and J.M. Bedford 208

Relationship of hormonal and reproductive status to myometrial activity in the Tammar Wallaby

I.R. Young 209

Papers presented and published by title only 210

THERIOGENOLOGY

Number 5, November 1977

Notices 211

Variations in the spermiograms of bulls with high numbers of sperm cell defects over an extended time period

G.F. Richardson, W.F. Cates and R.M. Lofstedt 213

Synchronisation of oestrus in heifers using steroid (SC5914, SC9880 and SC21009) treatment for 21 days

1. The effect of treatment on pregnancy rate to artificial insemination

D.F. Wishart 233

Synchronisation of oestrus in heifers using steroid (SC5914, SC9880 and SC21009) treatment for 21 days

2. The effect of treatment on the ovum collection and fertilisation rate and the development of the early embryo

D.F. Wishart 249

Effect of intrauterine device on ovarian function in goats

Suresh Chander and R.C. Gupta 271

The effects of low levels of PMSG and flush feeding upon embryonic survival in gilts

D.D. Emerson and D.M. Henricks 281

A method to visually observe and photograph the bovine genital tract *in situ*

R.G. Elmore, C.J. Bierschwal, R.S. Youngquist, D.J. Kesler and H.A. Garverick 293

Lethal white foals in matings of overo spotted horses

Ann Trommershausen-Smith 303

Number 6, December 1977

Notices 313

Pregnancy rates in cows and heifers inseminated at predetermined times using progesterone-releasing intravaginal devices

Allen R. Ellicott, Carl E. Thompson and James R. Hill, Jr. 315

"In vivo" pH values of the estrous reproductive tract of the gilt

E.C. Mather and B.N. Day 323

Impotence and abnormal sexual behavior in the stallion

B.W. Pickett, J.L. Voss and E.L. Squires 329

Sex ratios in dairy cattle under various conditions

R.H. Foote 349

A new progestin (Sa 45.249) for cycle control in pigs. Communication I: Hormonal activities and dosage

P. Mayer and E. Schütze 357

A new progestin (Sa 45.249 for cycle control in pigs. Communication II: Duration of treatment and effectiveness as an estrous cycle synchronizer

E. Schütze and P. Mayer 367

A new progestin (Sa 45.249) for cycle control in pigs. Communication III: Confirmation of effectiveness in field trials

K. Zerobin, E. Schütze and P. Mayer 379

A new progestin (Sa 45.249) for cycle control in pigs. Communication IV: Analysis of hormonal blood levels

P. Mayer and E. Schütze 389
